Industrial Hygiene Specialist

Permanent Full-Time, (37.5 hours/week); Bargaining Unit
Salary Range: \$99,623 – \$125,564 (annual)
Location: Northwestern Ontario

You are a driven health and safety professional with a desire to make a difference. As part of a high-performance team, you will provide technical industrial hygiene expertise to clients including consultation, evaluation, program development and support, and training. You will be responsible for evaluating the content and effectiveness of WSN's education and training programs related to industrial hygiene and associated hazards, as well as coordinate and support the activities of the Workplace Environment Technical Advisory Committee.

A natural leader, you are able to analyze highly complex situations, and act as subject-matter expert for the development of IH consulting services guidance resources, information and providing IH program and OHSMS development support. You will assist WSN clients with the identification of priorities, overseeing the development and implementation of intervention strategies, and provide workplace IH and environmental assessments. Your ability to develop work plans and schedules, set and meet goals, and work with minimal supervision at a professional level is complemented by your ability to tackle projects alone where required, as well as excel in a team atmosphere. You understand the importance of developing client relationships and following established processes, including ensuring accurate information is reported in a timely manner to ensure funder requirements are met. This includes diligent calendar entries and the frequent use of Dynamics 365 to capture accurate and timely data. You also have the ability to manage your own schedule in a responsible and ethical manner to balance your purpose and prioritize your well-being within a 37.5-hour work week.

You possess expert knowledge of industrial hygiene issues and have obtained a university degree or an equivalent combination of experience and education, which is complemented with seven (7) years of related job experience. Industrial hygiene experience including monitoring, sampling and results interpretation is required. Operational experience in surface, underground or industrial environments is required. A valid Registered Occupational Hygienist (ROH), Certified Industrial Hygienist (CIH), Registered Occupational Hygiene Technologist (ROHT) or Occupational Health and Safety Technologist (OHST) certificate is also required. A valid driver's licence and access to a vehicle are required.

To apply for this position, please forward your written application by 4:00 p.m. on **July 26, 2024** to:
