

Call for Papers: Symposium on Battery Electric Vehicle Safety

Submissions open until Wednesday, January 22, 2025

A one-day symposium on battery electric vehicle safety will be hosted by Workplace Safety North (WSN) and Workplace Safety and Prevention Services (WSPS) on Tuesday, April 29, 2025, from 9:00 am to 2:00 pm in Sudbury, ON.

This hybrid event expects to welcome more than 200 in-person attendees, and 100+ online viewers. Mining, industrial, and manufacturing industry professionals will attend for the opportunity to network and share knowledge about the risks associated with technological developments, traffic management, battery-powered equipment, and explore ways to manage hazards.

Workplace Safety North invites proposals for papers to present at the symposium. Presentations will be a maximum of 30 minutes, including time for participant questions.

Areas of focus for presentations:

- Research and innovation
- Industry case studies
- Hazard management
- Training and risk assessments
- Emergency response
- Charging safety systems and technology
- Storage systems and transportation

If you are interested in presenting a paper at the Symposium on Battery Electric Vehicle Safety, [please complete the 'Call for Papers' form](#) by **Wednesday, January 22**.
