\*Asbestos exposure resulting in related illnesses; year claim approved by WSIB

# OVERVIEW OF JOINT HEALTH AND SAFETY COMMITTEE CERTIFICATION TRAINING

Focus on workplace-specific hazards

## JHSC CERTIFICATION: PART ONE (3 DAYS)

This mandatory course provides participants with an understanding of how to recognize, assess and control workplace hazards, the rights and duties of certified members, and how to conduct effective workplace inspections and incident investigations.

## JHSC CERTIFICATION: PART TWO (2 DAYS)

Focusing on the concepts of recognition, assessment, and control of hazards, and evaluation of the hazard controls, participants learn how to apply these concepts to a minimum of six hazards relevant to their own workplaces. In addition, learners practise drafting action plans and recommendations for the employer.

By the end of the two-day course, participants will:

- Review material covered in Certification Part One
- Understand the hazard-related concept of recognize, assess, control and evaluate (RACE)
- Understand key hazards specific to the sector
- Use various tools to help recognize, assess and control hazards, and evaluate hazard controls
- Understand the role of the Joint Health and Safety Committee in relation to the Internal Responsibility System.

### Key hazards

- Unsafe operation of equipment
- Inadequate maintenance of machine guarding
- Failure to follow lock out procedures
- Poor lifting procedures
- Working in uncomfortable positions
- Work or equipment operation requiring repetitive motion
- Inadequate attention to workplace hazards while walking
- Failure to follow procedures while handling hazardous substances

## ALSO AVAILABLE

### COMPETENT SUPERVISOR TRAINING

(Disponible en français)

Health and safety awareness training is now law for every worker and supervisor in Ontario. WSN Competent Supervisor training focuses on the health and safety rights and responsibilities of workers, supervisors, and employers; and gives supervisors the tools to integrate health and safety into their everyday role. Supervisors are responsible for helping set and maintain a strong safety culture.

### MEMBERSHIP BENEFITS

A strong safety culture is a sign of a healthy, productive workplace. As a member of Workplace Safety North (WSN), you're entitled to expert advice and information, including access to classroom and online training programs, on-site meetings, health and safety audits, industrial hygiene testing, ergonomic assessments, specific problem-solving and more.

### YOUR HEALTH AND SAFETY PARTNER

An independent not-for-profit, Workplace Safety North is one of four sector-based health and safety associations in Ontario, and provides Ministry-approved workplace health and safety training and services for the mining and forest products industries, as well as businesses across northern Ontario.

With health and safety specialists located across the province, Workplace Safety North and its legacy organizations have been helping make Ontario workplaces safer for more than 100 years. A leading provider of health and safety training and consulting, businesses call upon WSN for expert advice and information.

### Services

Safe Workplace Ontario (SWO) third-party business health and safety certification program, WSIB safety group incentive programs, and health and safety systems and cultural audit.

### Training

Ministry-approved courses; Joint Health and Safety Committee Certification, Working at Heights Safety Training, Competent Supervisor, Mental Health First Aid, Positive Psychology, Mine Rescue, Mining and Forestry Mandatory Skills Training.
