

## Safe Chainsaw Handling training for snowmobile club volunteers and members

It's critical your trail maintenance volunteers and snowmobile club members understand the principles of safe chainsaw operation – from proper chainsaw starting procedures and cutting techniques, to using appropriate personal protective equipment.

### **Chainsaw training: Safe Chainsaw Handling**

Safe Chainsaw Handling is half-day course that explains the principles of safe chainsaw operation, and covers specific safety issues such as:

- Parts and safety features of the chainsaw
- Proper chainsaw starting procedures
- Proper grip, stance and cutting technique
- Danger zone rule
- Dealing with compression and tension wood
- How to deal with hung-up trees
- Working near power lines
- Preventing kickback

\$86.00 per person. For groups large than eight participants, please inform your local WSN Health and Safety Specialist to receive a special group rate.

To arrange training for your club members and volunteers, please contact the Workplace Safety North health and safety specialist in your area.
